OSHA Code of Federal Regulations Workshop

Learn how safety works to sustain productivity and safeguard manufacturing's most prized asset, the workforce.

Topics will include:

- The OSHA inspection process and agency priorities
- Update on current OSHA actions and the leadership within OSHA/Region III.
- Code of Federal Regulations (CFR) workshop - using web resources and the code book
- Top 10 deficiencies found in worksites during 2008; overview and explanation

Presented by Dale Glacken of the Harrisburg Office of OSHA
